

March 8, 2022

The Honourable Steven Guilbeault, MP  
Minister of Environment and Climate Change  
ministre-minister@ec.gc.ca

Minister Guilbeault,

The Construction Labour Relations Association (CLRA NL) supports a favorable decision on the Bay du Nord project, and encourages your support to secure the responsible development of Bay du Nord.

The Bay du Nord project would provide significant employment and economic activity to members of our Association and residents of Newfoundland and Labrador. Bay du Nord will provide tremendous financial, employment and industry opportunities and our Association is advocating for your support to give Bay du Nord approval to proceed.

Approval of Bay du Nord will play a key role in helping Newfoundland and Labrador meet global demand for responsible oil while supporting the provinces commitment to Net Zero by 2050, and would be the most carbon efficient development of its scale in Canada. Bay du Nord can be a piece of the solution as the world transitions to a lower carbon economy.

CLRA NL encourages your support to move the Bay du Nord project forward, and we look forward to supporting the advancement of work opportunities and to maximize the benefits of the Bay du Nord project, which is important to not only Newfoundland and Labrador, but to the Country.

Sincerely,

Terry French  
President, CLRA NL
